

BSWH Critical Shortages

Health

Pharmacy & Therapeutics Council Newsletter

The attached **Pharmacy & Therapeutics Council Newsletter**, summarizes the action items from the November 28, 2018 BSWH P&T meeting.

It is available for distribution to the CNO and CMO groups. It has been distributed to the P&T Council Members and Pharmacy Leaders. Please let us know if you would like to discuss any of the information.

Allscripts Downtime – Sunday January 27, 2019

- This will be an extended downtime, **planned 00:00 to 07:00 (6 hours)**
- Batches/Cart Fills will need to be run prior to the downtime start time.
- Print Downtime MARs for '07:00 01/26 to 06:59 01/27' and deliver to units by 10pm Saturday 01/26
 - If the downtime is projected to extend beyond 0700, you will be requested to print the Downtime Mars for '07:00 01/27 to 06:59 01/28'
- Omnicell cabinets will be set on override status
- Your Director/Manager have the downtime checklists and tip sheets. Please review those documents prior to this extended downtime.
- Around 11 pm on January 26, we will establish a Skype for Business/Lync conversation so we can easily communicate with all sites.
- Grace Poon will be Operational Lead and Andrew Escobedo will be Informatics Lead

Allscripts Changes – Feb 5, 2019

- **Medication Drip Concentration Changes**
- New concentrations for the following drips will be added to the order sets and browse items in Allscripts, as well as in the Allscripts flowsheets and the pump library.
 - DOBUTamine drip (DOBUTREX) 500 mg/250 mL (2mg/mL)
 - DOPamine drip (INTROPIN) 800 mg/250 mL (1.6 mg/mL)
 - PENTobarbital drip (NEMBUTAL) 1000 mg/250 mL (4mg/mL)
- Order Set changes – See attached document.

IV Pump Library Update (Plum360 15.1X Devices)

Please see the attached flyer for the pump library update scheduled for **Tuesday, February 5th**. Please share the attached flyer during multidisciplinary huddles to increase nursing and pharmacy awareness of the changes.

The following critical shortages continued to be monitored at a system level.

- Bupivacaine Injection
- Bupivacaine w/epinephrine Injection
- Cefotaxime Injection (Discontinued)
- Cefazolin Injection
- Diphenhydramine Injection
- Fentanyl Citrate Injection
- Hydralazine Injection
- Hydromorphone Injection
- Ketamine Injection
- Labetalol Injection
- Lidocaine Injection
- Lorazepam Injection
- Morphine Injection
- Morphine PCA Injection
- Sodium Bicarbonate Injection
- Sodium Phosphate Injection

As you come across drug shortages, please forward the information to Leon.

Adult DOPAmine and doBUTamine standard concentrations change in Allscripts

The standard concentrations for adults will be changing in Allscripts (order sets and order items) for both dopamine and dobutamine on **Tuesday, February 5th**. These changes will align Allscripts to the BSWH ADULT standard concentrations for these medications. The changes will be reflected in the IV Pump Library update also occurring on February 5th. The new standard concentrations are:

- DOPAmine 800 mg / 250 ml
- doBUTamine 500 mg / 250 ml

Pharmacy operational changes are needed to address stock outside of pharmacy (crash carts, automated dispensing cabinets, etc.)

ISMP

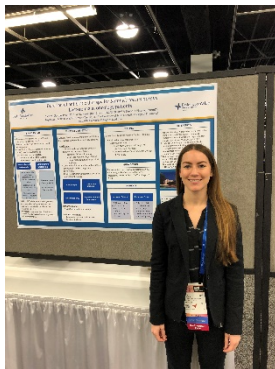

Attached is the January 17th edition of the Acute Care ISMP Medication Safety Alert. In this edition you will find the following topics:

- Safety enhancements every hospital must consider in wake of another tragic neuromuscular blocker event
- Finalized guidelines for electronic communication
- Worth Repeating
 - o Don't confuse Rituxan Hycela with Ritiuxan
- Safety Briefs
 - o Flavoring should not be part of a drug name
 - o Doggone veterinary product dispensing error
 - o ISMP Guidelines for Safe Electronic Communication of Medication Information

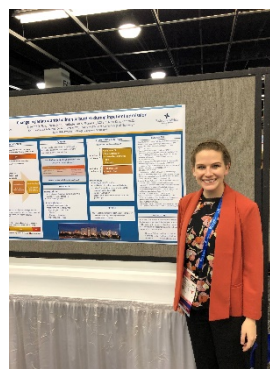

Experience

ASHP Midyear Meeting

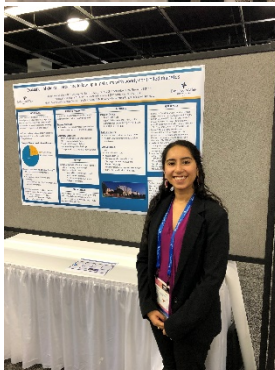

Each week we will be highlighting a group of residents/fellows that presented at the ASHP Midyear Meeting. This week we are focusing on the Baylor Scott & White Temple Medical Center Residents.

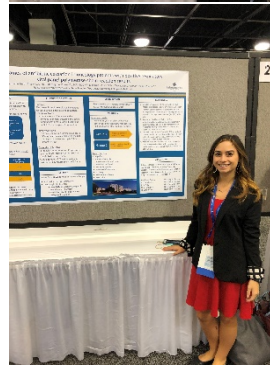

Cara Clayton
Duration of antibiotic therapy for Staphylococcus aureus bacteremia in oncology patients

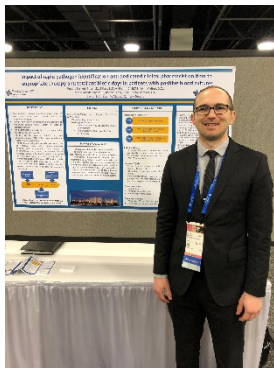

Shannon Rice
Change in geriatric anticholinergic burden during inpatient admission

Baneen Noorali
Evaluation of clinical inertia and follow-up in patients with poorly controlled diabetes

Stephanie Smith
Outcomes of antibiotic cessation in oncology patients with positive respiratory viral panel polymerase chain reaction results

Robert Basnett

Impact of rapid pathogen identification and dedicated clinical pharmacist on time to appropriate therapy and total antibiotic days in patients with positive blood cultures

ARCHIVED PAST PRESENTATIONS

As a result of employee feedback, previous live education programs are being recorded and will be posted [HERE](#). CE credit is only available for those that attend the **LIVE** program at this time. CE credit will **NOT** be granted for viewing the archived program at a later date at this time.

HOME STUDY PRECEPTOR PHARMACY EDUCATIONAL PROGRAM

Continuing Education Opportunity – The Effective Pharmacy Preceptor – A synopsis of Key Concepts
ACPE program number: Pharmacists **0626-0000-18-051-H04-P**

Jason Trahan, PharmD, DPLA, CPPS will be providing a two-hour credit continuing education seminar.

WHAT: ACPE Accredited Presentation

WHEN: Home Study January 1, 2019 through December 1, 2021

Sydney Kutter, PharmD, will be presenting a one hour continuing education seminar.

WHAT: ACPE Accredited Presentation

WHEN: Tuesday January 29, 2019 at 1:00 pm

WHERE:

<https://meeting.bswhealth.com/orion/joinmeeting.do?MTID=844e603361f8793d695497b310316074>

Phone (Audio Connection): 469-291-6700

Access Code: 994 008 383

WHO: All BSWH Staff are invited to attend

Pre-registration is NOT required. However, to receive ACPE credit participants MUST complete and return a legible BSWH Pharmacy Continuing Education Evaluation form no later than 14 days after completion of the live program. Credit may take 45-60 days before posting to CPE Monitor (NABP Profile)

Baylor Scott & White Health (BSWH) is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. BSWH designates this activity for a maximum of 1.0 ACPE credit hours. UAN: 0626-0000-18-049-L01-P

Alignment

BSWH Pharmacy Midyear Update

Click [HERE](#) for the FY19 Pharmacy Midyear Report. The report includes updates on our four strategies: Health, Experience, Affordability, Alignment, and Growth.

ATTENTION: Be on the Lookout for Your Form W-2

If you consented to receive your Form W-2 electronically, be on the lookout for an automated notification early next week. This notification will include instructions on how to access a PDF copy of your electronic Form W-2 in PeoplePlace.

Your electronic W-2 is available on PeoplePlace.

1. Log in to PeoplePlace
2. From the "Me" home page click Payroll
3. Select View W-2/W-2c Forms
4. Click on the link "Year End Form"

If you did not consent to receive your Form W-2 electronically, the standard paper copy will be mailed via United States Postal Service (USPS) to your mailing address in PeoplePlace. Delivery is based on the USPS delivery schedule.

Although it's too late to consent for an electronic Form W-2 this year, get ahead for next year and consent today through PeoplePlace.

Growth
